PRODUCT SPECIFICATION

Sterilization wavelength(Peak Wavelength):UVC 254nm

Sterilization radiation intensity(Radiant Flux):300um/cm²

Operation time and number of use:Disinfection time per Ttime is 5minutes,
5 times based on full charging

Battery:3.V 420MA, Charging time: within 2 hours based on 5V 300MA

Power Consumption:5W

Size and weight: 80x80x110mm,200g
